August 2022

2022 Marks the 10th Edition Of Future Fish Eurasia

Future Fish Eurasia, the 10th International Fair for Fish Imports/Exports, Processing, Aquaculture and Fisheries will be organised by Eurasia Trade Fairs at the Izmir International Fair Centre between 3 – 5 November 2022.

Future Fish Eurasia 2022 will be organised in a hall of 10.000m², where over 200 local & international companies will display their latest products and services. The concept of Future Fish Eurasia is a combination of seafood products, aquaculture and fish processing equipment, catering for fish traders, farmers & processors.

Turkey; One of the leading countries in aquaculture...

Turkey is surrounded by four seas, including Mediterranean Sea, rich in diversity of fish species. Natural richness including inland resources provides a major advantage in having a large variety of aquatic species, mainly sea bass, bream, rainbow trout and sea trout. Hatcheries are equipped with advanced technologies, fish farms and seafood processing factories are completely adapted to EU and FDA regulations. The industry continues to diversify by investing in development of new species as well, giving utmost importance to hygiene and quality, for assuring the quality of Turkish Seafood. The dynamic structure of Turkish aquaculture and Future Fish Eurasia form a perfect platform for those in the fish business. Providing an opportunity to introduce your aquaculture and/or processing technology to Turkey and its neighbouring countries, buy high quality seafood products or sell alternative seafood.

Don't Miss Out, Book Now!

Companies are advised to book as soon as possible in order to exhibit in their preferred stand size and location.
